Talks, timetable

Monday:

09:15	10:15	Liao, Beishui	overview	An Overview of Argumentation and Its Roles in Formalizing Coordination in MAS
10:45	11:45	Slavkovik, Marija	overview	Judgement Aggregation: An Overview
11:45	12:00	Van Riemsdijk, Birna	short	Computational reasoning for socially adaptive electronic partners
12:00	12:15	Harbers, Maaike	short	Sharing information in teams: what, when and with whom?
14:00	15:00	Dastani, Mehdi	overview	Norm-based Coordination in Multi-Agent Systems
15:00	15:20	Logan, Brian	medium	Fair allocation of group tasks according to social norms
15:20	15:35	Pedersen, Truls	short	Anonymity in ATL -- Strategic Homogeneity
16:00	18:00	Working Groups	WG	working groups (main room)

Tuesday:

09:00	10:00	Brill, Markus	overview	Computational Social Choice
10:00	10:15	Criado, Natalia	short	Normative Agents
10:45	11:00	Troquard, Nicolas	short	Resource-sensitive interactions
11:00	12:15	WG - Presentation	Discussion	joint presentation of workgroup results (main room)
14:00	15:30	Working Groups	WG	working groups (main room)

Wednesday:

09:00	09:20	Oren, Nir	medium	Practical reasoning, norms and argument
09:20	09:40	Padget Julian	medium	An action language approach to normative specification, analysis and revision
09:40	10:00	Vercouter, Laurent	medium	How social control can achieve coordination for decentralized large scale MAS
10:00	10:20	Brian Lam	medium	Exploiting Speculative Computation with Defeasible Reasoning in Multi-Agent System
10:45	12:15	Working Groups	WG	working groups (main room)
14:00	14:20	Broersen, Jan M.	medium	Disambiguating several interpretation problems of ATL-extensions
14:20	14:35	Bulling, Nils	short	Agents with Perfect and Truly Perfect Recall
14:35	14:50	Dima, Catalin	short	Automata techniques for temporal epistemic logics
14:50	15:10	Turrini, Paolo	medium	Pre-vote negotiations and voting games
15:20	15:35	Slavkovik, Marija	short	Abstract Formal Basis for Digital Crowds
16:00	18:00	Working Groups	WG	working groups (main room)

Thursday:

09:00	09:20	Lujak, Marin	medium	Towards future road networks: considering traffic system's fairness trap
09:20	09:40	Brill, Markus	medium	Strategic Voting and Strategic Candidacy
09:40	10:00	Sack, Joshua	medium	Modal Logic for Mixed Strategies in Games
10:00	10:15	Dennis, Louise A.	short	Verifying Agents that plan
10:45	11:00	van Zee, Marc	short	Collective Intention Revision from a Database Perspective
11:00	12:15	WG - Presentation	Discussion	joint presentation of workgroup results (main room)
