Monday, Feb 11

9.00h Opening/Introduction
10.15h Coffee break
10.45h Jouko Väänänen, Dependence Logic
12.15h Lunch and Break
15.00h Erich Grädel, Logics with team semantics and second-order reachability games
16.00h Break
16.30h Philip Dawid, Conditional Independence and Irrelevance
18.00h Dinner

Tuesday, Feb 12

9.00h Pietro Galliani, Definability Issues in Team Semantics
10.15h Coffee break
10.45h Phokion Kolaitis, Foundations and Applications of Schema Mappings
12.15h Lunch and Break
14.30h Samson Abramsky, From Quantum Mechanics to Logic, Databases, Constraints, Complexity and Beyond
16.00h Break
16.30h Georg Gottlob, From Local Hidden Variables in Quantum Mechanics to Robust Colorability and Satisfiability
18.00h Dinner

Wednesday, Feb 13

9.00h Sebastian Link, Dependence, Independence, Logic
10:00h Panayiotas Constantinou, Extended Conditional Independence
10.30h Coffee break
11.00h Eric Pacuit, Dependence and Independence in Social Choice Theory
12.15h Lunch and Break
13.30h Hike/Free afternoon
18.00h Dinner

Schedule Dagstuhl Seminar 13071 "Dependence Logic: Theory and Applications"

Thursday, Feb 14

9.00h Wilfrid Hodges, Compositionality: Its history and formalism
10.00h Fan Yang, Uniform definability in propositional dependence logic
10.30h Coffee break
11.00h Pierfrancesco La Mura, A double-slit experiment for non-classical interference effects in decision-making
12.15h Lunch and Break
15.00h Julian Bradfield, Concurrency, causality and dependency
16.00h Break
16.30-17.00h Miika Hannula, Axiomatizing first-order consequences in independence logic
18.00h Dinner

Schedule Dagstuhl Seminar 13071 "Dependence Logic: Theory and Applications"

Friday, Feb 15

9.00h Andreas R. Blass, Introduction to Secret Sharing
10.00h Coffee break
10.30h Arnaud Durand, Complexity issues in dependence logic
11.00h Closing
12.15h Lunch
